

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR**

MILTON WATER, WV3300609

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 7/1/2022 and 7/31/2022, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
38, MONITORING, ROUTINE (IESWTR/LT1), MINOR TURBIDITY	7/1/2022 to 7/31/2022

What happened? What is being done? (Describe corrective action)

The sample listed above was not taken in the appropriate time frame. This has been corrected and proper samples have been analyzed. All analyses were within drinking water standards.

For more information, please contact Jeff Miller at 304-743-3821
(Contact name) (Phone number)
Or 1139 Smith Street, Milton, WV 25541
(Mailing address)

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR**

MILTON WATER, WV3300609

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 8/1/2022 and 8/31/2022, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
38, MONITORING, ROUTINE (IESWTR/LT1), MAJOR TURBIDITY	8/1/2022 to 8/31/2022

What happened? What is being done? (Describe corrective action)

The sample listed above was not taken in the appropriate time frame. This has been corrected and proper samples have been analyzed. All analyses were within drinking water standards.

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER
MONITORING REQUIREMENTS NOT MET FOR**

MILTON WATER, WV3300609

We are required to monitor your drinking water on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. Between 9/1/2022 and 9/30/2022, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
38, MONITORING, ROUTINE (IESWTR/LT1), MINOR TURBIDITY Inadequate number of turbidity readings reported in total	9/1/2022 to 9/30/2022

What happened? What is being done? (Describe corrective action)

The sample listed above was not taken in the appropriate time frame. This has been corrected and proper samples have been analyzed. All analyses were within drinking water standards.

Between 7/1/2022 and 9/30/2022, we failed to submit the required samples as indicated below and therefore cannot be sure of the quality of our drinking water during that time.

What should I do?

There is nothing you need to do at this time.

The table below lists the required monitoring and the compliance period.

Required Monitoring	Compliance Period
27, MONITORING, ROUTINE (DBP), MAJOR Failure to monitor/report Haloacetic Acids (HAA5s)	7/1/2022 to 9/30/2022

What happened? What is being done? (Describe corrective action)

The sample listed above was received at the Pace Analytical Beaver, WV laboratory without error and transferred from the Beaver location to the Pace Madisonville, KY laboratory without error. The Madisonville laboratory had quality control measures that failed which required a re-extraction and re-analysis of all samples within that batch. Retesting could not be conducted within the prescribed holding time. This has been corrected and proper samples have been analyzed. All analyses were within drinking water standards.
