

**WORK SESSION
MINUTES**

Mayor Canterbury called the Work Session to order at 5:35 pm. All were present.

The following items were discussed:

- Discussion about how MMUC will pump/acquire water for customers when the US Army Corps of Engineers moves the raw water intake location. Can the intake be moved upstream before the existing intake is shut down?
- Discussion about upgrading the Water Plant to a Pressurized Water Filtration System so that more water can be pumped through, and back-washing would take less time. Will the Mud River provide enough water?
- Water line replacement. Which need to be replaced first?
- Is a water rate increase necessary. Must obtain opinion from accountant.
- Use of American Rescue Plan grant for infrastructure.

Council Member Harshbarger moved to adjourn at 6:42pm. Second by Recorder Ryalls. Motion carried.

Tom Canterbury, Mayor
